SpamExperts Protection

We hate spam. SpamExperts provides an average 99.98% email filtering accuracy with close to zero false positives helping keep unwanted mails from reaching your inbox.

Apps and CMS

Install over 100 great applications including WordPress, Joomla, Magento, Drupal and much more in one click!

We provide **cPanel Installatron** as standard. Installation allows you to easily set up **over 100 great applications including WordPress, Joomla, Magento and Drupal** with a click

Free DDoS protection

Our advanced DDoS protection is provided absolutely FREE on your hosting account to help mitigate unwanted traffic spikes.

Unlimited Everything

Host unlimited databases, email and data for your sites. You can have as many domains as you like.

We also make use of several **PHP cache** technologies to ensure that your site performs optimally at all times.

No Contracts or Fees

We don't contract you into our service. You are free to cancel whenever you like without penalties or quibbles.

We don't believe in contracting you into a service and are confident that our service speaks for itself. We provide a **no contracts** service with **no setup fees**, giving you peace of mind and flexibility.

We'll Help You Move

Want to move to us? We've got the advice and know-how to make it straightforward. If you're already using cPanel, it's easy!

Don't worry if you already have web hosting but want to benefit from our unlimited service.

We offer free advice and assistance on how you can migrate your business domain, website and e-mails from your existing provider to JachOOs Business Cloud Hosting- and how to accomplish this with minimal downtime. If you can provide a full cPanel backup of your account, we will even restore this for you and you'll be up and running in no time!

Backup Benefits

- 30 Daily backup snapshots
- Backups of ALL websites you create
- Files, databases & emails backed up
- Restore individual files or folders with ease
- 100% SSD disks
- Stored off-site
- Powered by R1Soft

JachOOs business cloud hosting plans **include** weekly/monthly backups as standard (2 x snapshots stored) for all websites hosted under your account.

We appreciate many customers require more frequent backups of their hosting data with increased data retention periods, which is why we've introduced our backup service.
